This Sylvan Lake home has so much space to offer with 5 bedrooms and 3 bathrooms. There is an oversized attached garage as well as an oversized detached garage. There is room for lots of toys - RV, boat, quads, etc!!! With a couple items left on the to do list, this home will retain value extremely well once updated. The open concept main floor has a fireplace shared by the dining area and living room, and dining area has a door that opens up to the deck outside. The master has a walk in closet as well as an ensuite bathroom. 2 more bedrooms finish off the main floor. The basement has 2 more bedrooms, a bathroom, laundry room, and a large rec room/family room area. There are also heated floors in the basement as well as at the attached front garage. There is so much space in this basement, with the entrance from the garage directly to the laundry room, there is potential to make this into a 2 bed 1 bath suite!! The backyard is expansive and has an extra garage that is insulated and has heated floors roughed in. The shingles on the house were done in November. This is such a great family home on a great lot.
